Heros kidnapped! Criminals Freed

I am an adventurer myself and love exploring the plateau and documenting everything I find. Sadly recently heard about injustice. My party is filled with people from across Falnorian; I personally am from Halamin. While I was else where documenting valcion, my party intervened in a dispute. The dispute involved vigilantes dealing justice to bandits through death. To any newcomers who don't know how our camp works, death is unacceptable and will be punished twice over. My party intervened to try to negotiate with the bandits. But after the bandits attacked my party those brave vigilante attacked back showing the bandits that crime won't go unpinished in valicon. Unforturataly two wild party members by the names of Chris (non-verbal) and Starling (Chris's companion who helps with translations) attacked the vigilante wounding two of them while the other one was was caged in by Starling and Chris and other members. My party let those two vigilantes get kidnapped by the bandits and they healed the bandits! Events like these undermine our town and our laws. Don't stand by and watch, take action today, demand that all are held accountable!

Mountain Goats Tamed!

Since Valcion has been founded, we have always faced many problems. One of these problems is the lack of food, but recently I and my party have decided to solve this problem. First we took care of the bugs in the gardens, killing all of them. Then we went to deal with the attacking mountain goats. But, instead of killing these goats, we tiamed them, growing our herd of animals while eliminating other threats. Finally we cleared out the bugs from our water well.
