Dear trees of wood. I know you no know how to read but i write now to know in new day what i will tell you of.

Here. I am here in loud land of town. They are strange here. Much word which no make sense. Much fight for things that seem to mean not one thing. Fast talk like world end in days. It hurt head and hurt sleep. Found group to be a pack they say. I no know if the words they say are of the same idea of here. Much word. The more word, the less it mean.

It been short time but i miss home. I miss peace, sound of birds, dirt, streams, and beasts in my hair. Sad here. It is like much pups who get fight by wolf for fun.

Tale of what i do on this day.
When find group here who do, look, and talk. They come back from place where talk to kids. I no get much know from talk but kid seem lost.
1) we go in much strange place to find guards who dead. I find folk who speak big word and count. They hurt me, one take me out to other place and heal. I heal too. Folk walk back, i hit back. He fall. Pack here no know how fight. Think they no do much like that. Time in woods would be good for them. Folk kill those who not me. I prove self to them? Make sense. I get heal for time two. Walk more. Fight scale beast from swamp. Man who say is imp fight too? I hit scale beast much but it bite me much. I fall, it eat me. The norm.
2) i go with fake pack to get fey. I want fey to work for woods, pack say you no speak for us but would work. Make no sense. In time near town, girl man say my name Branch, I seem like branch to her. On the way, we see hums who loud with big feel and talk of date. I no know why they feel so for date but they must think taste good. It do, i can give them that. One seem scare of date. May be that date make hum hurt? Hurt is big feel. They leave. We go to place where folk sell thing and fey buzz and cause wreck. They seem worse here. Make sense, here worse. I walk and speak to fey, they no speak back. They just zip zap and spell, do what fey do. High fey come, i tell it it should work for woods. It say like shrug and ask what i am of two choice. I tell it that is my choice no want give fey thing no need to. It

tell me to choose soon or a thing will chose for me. I no know what mean, not make sense.

3) more walk. Kids play a game "tag" with fey. Some of our pack folk play tag with them. I thought they would not leave from game but seem like that not the case. Good. must not be same as some time. Then we go find kid, one kid stab one of pack. Two kid tap or tag? Seem strange. Then we go to haunt place. Swamp take land from land. Sad but true. No know why it is haunt or if it solve. But we go to house place, I sit for time to take in the feel, to me, not wrong but scare. I look up, walk to the one with voice that no sound like voice of most. she have fire and grab where dark. Then girl man who in white now here. now folk from walls come to fight. She who come from light in white walk with girl man who reach in dark. I no see more due to hurt from burn.

Think it may be good to learn more of write and speak. Must think more.
